Notices processed using automated means	0
Median time to action	n/a

5. Own-Initiative Moderation

No content moderation actions were initiated by ASQS GmbH during the reporting period.

6. Use of Automated Means

No automated tools or systems were used for content moderation during the reporting period.

7. Complaints (Article 20)

ASQS GmbH received zero complaints related to content moderation decisions.

8. Methodology and Definitions

For the purposes of this report:

/ **“Moderation”** refers to any action restricting, removing, or disabling access to content.

/ **“Notice”** refers to any notification submitted under Article 16 DSA.

/ **“Measure”** refers to actions taken in response to a notice or own-initiative moderation, including removal, restriction, or account-level actions.

As no such events occurred, all quantitative values in this report are zero.
